

**NEW SECOND FLOOR ADDITION and
FIRST FLOOR RENOVATIONS**

Chicago, Illinois

A new second floor is added to an existing brick bungalow style, which makes use of the existing stucco and half-timbering style of the front and side gables. New open stairs, with ample light and ventilation provided, lead to the second floor spaces that include a Master Bath and second Bath. The new Master Bedroom, two Bedrooms and Dressing Room upstairs are provide with generous vaulted ceilings. Extensive renovation of the first floor includes a remodeled bathroom, a kitchen with a more suitable and efficient layout, and new vaulted ceilings at the living room.
